SUMMARY

Information Systems student at UNPAM, Semester 7 (GPA 3.70/4.0, Semester 1-6) building production web applications end to end. Currently a Data Analyst (OJT) at APIKpreneur, Bakti Pemuda Foundation, and a Full Stack Engineer at PT Indotech Digital, where 20+ pull requests have been merged to a live Laravel platform. Previously built a marketplace REST API in Golang (90.91/100) and an e-commerce catalog in Vue.js (87.79/100), and placed 5th of 926 in a Yandex machine-learning competition.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Golang, SQL, HTML5, CSS3

Frameworks: Laravel, Vue.js 2, Gin (Golang), Bootstrap

Databases: MySQL

Architecture & Auth: Clean Architecture (Handler-Service-Repository), Eloquent ORM, REST API, JWT, RBAC

Data & Automation: Google Apps Script, Data Analysis, Dashboard Reporting

Tools & DevOps: Git & PR review, GitHub, GitLab CI/CD, Postman, WSL, Figma

AI & Cloud: AI-assisted development workflow, Prompt Engineering, Azure OpenAI, Huawei Cloud (HCIA)

PROFESSIONAL EXPERIENCE

Data Analyst (On-the-Job Training) - APIKpreneur / Bakti Pemuda Foundation

Aug 2026 - Present

Jakarta, Indonesia - Hybrid

- Placed with Gatra Data (data-analytics partner) under a scholarship-funded OJT program; built an automated donor segmentation engine in Google Apps Script for a 16,000+ row dataset, using hierarchical RFM-style logic resolved directly with stakeholders.
- Designed a self-service dashboard - favorite-program ranking and cumulative month-over-month segment growth - for non-technical teammates.
- Automated the full pipeline with a daily time-driven trigger, including debugging a getUi() execution-context error.

Full Stack Engineer - PT Indotech Digital Group

Jun 2026 - Present

Jakarta, Indonesia - Hybrid

- Ship features to Nobel Akademi, a live Learning Management System - 20+ pull requests merged to production through a dev to staging to main review flow.
- Built the Bootcamp module end-to-end in Laravel 11 (6-table data model, backend, admin CMS, public pages) and the Webinar module (registration, Mailable confirmations); eager-loaded Eloquent relations to avoid N+1 queries.
- Diagnosed a production defect to root cause - a corrupted vendor asset silently halted JavaScript execution - and hardened the page so one failing library cannot break unrelated features.

Backend Developer Intern - Evermos x Rakamin Academy

Dec 2025

Remote

- Built a Marketplace REST API (Golang/Gin, MySQL, JWT) using Clean Architecture across 7 modules: Auth, User, Store, Address, Category, Product, Transaction.
- Implemented JWT auth, RBAC, multi-image upload, pagination, price-range filtering, and atomic DB transactions. Score: 90.91/100 (Excellent). [View Certificate](#)

Frontend Developer Intern - Core Initiative x Rakamin Academy

Oct - Nov 2025

Remote

- Built an E-Commerce Catalog (Vue.js 2) consuming live REST API data, with 3 dynamic UI themes via class binding and CSS variables.
- Delivered a pixel-perfect Figma implementation and deployed via CI/CD. Score: 87.79/100 (Excellent). [View Certificate](#)

Data Management Intern - Lembaga Kemahasiswaan & Alumni UNPAM

Nov 2024 - Jul 2025

Tangerang Selatan - On-site

- Structured and managed 500+ student and alumni records and automated data workflows with JavaScript.
- Built a digital archive for 1,000+ files and data visualizations for faculty presentations. Predikat: Sangat Baik. [View Certificate](#)

EDUCATION

Bachelor of Information Systems - Universitas Pamulang

Sep 2023 - Oct 2027 (Expected)

GPA 3.70 / 4.00 (Semester 1-6) - Tangerang Selatan, Banten

Published: "Penerapan Metode SAW Penerima BLT Berbasis Web pada Kantor Desa Waru Jaya" - [Inomatec Journal, Jan 2026](#)

CERTIFICATIONS

- [Junior Web Developer - BNSP](#) (BPPTIK Kominfo, Digitalent Scholarship) - Aug 2023 - Aug 2026
- [Linear Models in Machine Learning \(91 hrs\) - Yandex / Komdigi](#) - Ranked #5 of 926 in competition - 2025
- [HCIA Cloud Service - Huawei / Komdigi](#) - 2025
- [Fundamental Project Management - Google / Komdigi](#) - 2025
- [Prompt Engineering with Azure OpenAI Service - Microsoft / Komdigi](#) - 2025
- [UKBI Madya \(Score 549\) - Badan Bahasa, Kemdikbud](#) - valid to Sep 2027 - 2024

LEADERSHIP

President - Forum Studi Jurnalis

Oct 2021 - Nov 2022

- Led a student journalism organization of 300+ members and coordinated 15+ events including technical seminars and workshops; recognized as Best Chapter President.
